## CONSTRUCTED TOUGH YET EASY TO OWN

If you want to beat the heat this summer, there's no better way to cool the summer sizzle than in a DYNASTY pool from CORNELIUS.

Designed and built to the highest standards in the industry, the DYNASTY is carefully crafted to provide years of problem-free enjoyment. Three components form the solid, integrated structure of the DYNASTY—the wall, frame and sub frame.

The first component is a heavy gauge steel wall, which is hot-dip galvanized and treated with "Weatherizer" paint coating for additional protection. A decorative wall pattern is applied over this surface and is then treated with our Krystal Kote® sealant to protect it from weather elements and pool chemicals. Lastly, a convenient wide-mouth skimmer cut-out is incorporated.

The sturdy DYNASTY khaki-colored pool frame consists of a wide, 8-inch extruded resin ledge, coupled with a 7-inch extruded resin post and topped with a three-piece injection molded resin cap and post collar.

The sub-frame features a strong, extruded resin bottom track with injection molded resin lower post collar and bottom connector.

## SIMPLE AND EASY INSTALLATION

As many CORNELIUS pool owners have discovered, if you can use a screwdriver, you can assemble your own CORNELIUS pool. No multi-sized washers or nuts are used. We've simplified assembly with just one large screw type for all the round pool elements.

## PICK THE SIZE AND SHAPE THAT'S BEST FOR YOU

Whatever size of property you have, there's a DYNASTY pool to fit your yard and your budget. Choose from a wide variety of Round, A-Brace Ovals or NBS Ovals and beat the heat this summer!

Dynasty round - Khaki Maya wall offered in 52 and 54 inches

Dynasty NBS oval - Tuscan wall offered in 52 inches

### STEEL WALL COMPONENTS

1. Plasticized SP coating
